- Meth: Big Time Drug in Small Town America, Vol. 1: Victims*
- Meth: Big Time Drug in Small Town America, Vol. 2: Facing the Addiction*

We provide **community educational presentations** to groups of all sizes and many topics, including date/acquaintance rape programs under a VOCA (Victims of Crime Act) grant and the Stewards of Children Child Sexual Abuse program. Our programs typically include one of our documentary videos and leading discussion and a Q&A about that subject, often with a panel of

experts. We can also collaborate with you and other organizations on the content. Let us know what you're interested in and we'll develop a presentation!

Our **Victim Impact Curriculum** is available as a 98-page **Facilitator Manual** alone or as a package including 16 of our documentary videos (your choice). The curriculum is designed for **12 or more 2-hour classes** and covers 10 topics with 11 chapters as well as activity worksheets for each chapter.

The curriculum works as a stand-alone class or in conjunction with other programming, such as classes that focus on anger management, addiction issues, parenting and life-skills. We can quote you a price for providing an on-site facilitator training of the program.

The YHTP victim impact curriculum covers ten topics: **Accountability; Cultural Barriers; Property Crimes; Substance Abuse; Drunk, Impaired & Distracted Driving; Domestic Violence & Stalking; Child Abuse; Crimes Against the Elderly; Sexual Assault Part 1; Sexual Assault Part 2; Homicide; and Forgiveness.**

There is absolutely no excuse for victimizing behavior. However, there are explanations. We need to understand what motivates negative behaviors if we want to address them. Knowledge of core issues can help offenders have a "light bulb moment," realizing they are not crazy or a bad seed. Connecting those dots, they can now work on the issues driving their behavior. Because many core issues are tied to child sexual abuse and growing up in homes with domestic violence, we spend more time in our victim impact classes talking about the dynamics of these crimes and the long term impact for the victims.

Full program with 16 documentary videos: \$1000
 Facilitator manual alone: \$400
 DVDs alone: \$600
 Facilitator training: e-mail info@yhtp.org for pricing

Our **Stewards of Children** child abuse prevention training program has been used across the country at many types of organizations and community groups, for both professionals and the general public.

Check out the Stewards of Children documentary trailer at <http://bit.ly/1bie4rC>.

Child sexual abuse is likely the most prevalent health problem children face, with the most serious array of consequences. In fact, 1 in 10 children will experience sexual abuse before their 18th birthday (Source: Darkness to Light).

This means that whether you work with youth, are a parent, or are simply a member of a community, it is highly likely that someone you know and care for has experienced, or is currently experiencing, child sexual abuse. It's going to happen whether you are prepared to deal with it or not... unless you stop it from happening.

Stewards of Children uses real people and real stories to show you how to protect children. You'll meet survivors who lived through child sexual abuse, experienced its immediate and long-term effects, and ultimately were able to find healing. You'll also meet experts who work with children and families, and confront abuse on a daily basis. Many of these survivors and experts are also parents, themselves.
